Applications:

The QUANGUI LTS-090-13002 Artificial Yucca Tree is an ideal product for those who love to decorate their homes or offices with plants, but don't have the time or energy to maintain real plants. Made with high quality plastic, this artificial plant looks realistic and is perfect for both indoor and outdoor use.

These artificial plants are perfect for interior design, and can be used in a variety of settings such as the home, office, living room, bedroom, staircase, lobby, and more. Whether you're looking to add a touch of greenery to your space or create a tropical oasis, these artificial plants will meet your needs.

Because these plants are made with high quality plastic, they are durable and long-lasting. They're also easy to maintain - simply wipe them down with a damp cloth to keep them looking fresh and clean. Plus, because they're UV resistant, they won't fade or deteriorate when exposed to sunlight.

The QUANGUI LTS-090-13002 Artificial Yucca Tree is also available in various sizes, and the 130cm size is just one of the many options. Whether you're looking for a small plant to fit on your desk or a large tree to fill a corner of your room, there's a size that will work for you. With ISO certification and a minimum order quantity of 20, these artificial plants are a high-quality product that you can trust. The price of 18.43USD per plant is reasonable and affordable, and the packaging details in cartons ensure that your plants will arrive safely and undamaged.

Delivery time is quick, with a 10-day turnaround, and payment terms of 30% deposit and 70% balance make purchasing these plants easy and stress-free. With a supply ability of 1000 sets per month, there's no shortage of these artificial plants for you to enjoy.

In summary, the QUANGUI LTS-090-13002 Artificial Yucca Tree is a versatile and durable product that can be used in a variety of settings. Made with high quality plastic, this artificial plant is perfect for interior design and will add a touch of greenery to any space. With UV resistance and various size options available, these plants are an excellent choice for anyone looking for a low-maintenance alternative to real plants.
