Product Description

Product Description:

The Fiber Clay Planter is a stylish and modern addition to any indoor or outdoor space. Crafted from fiber cement material, this planter combines the durability of clay with the lightweight nature of fiber, making it a versatile and practical choice for your plants.

One of the standout features of this planter is its frost-resistant quality. The Fiber Clay Planter is designed to withstand harsh weather conditions, making it suitable for use in various climates. Whether you place it on your patio, in the garden, or at a cozy cottage, this planter will maintain its integrity and appearance over time.

With a sleek and modern design, this planter complements contemporary decor styles and adds a touch of sophistication to any space. Its neutral color allows it to blend seamlessly with different color schemes and plant varieties, making it a versatile choice for both indoor and outdoor settings.

Whether you are looking to enhance the ambiance of your hotel garden, home, or indoor space, the Fiber Clay Planter is a perfect choice. Its versatile design and durable construction make it suitable for a wide range of environments and purposes. You can use it to display your favorite houseplants, succulents, or flowers, adding a touch of greenery to your surroundings.

Depending on your preference and plant's needs, the Fiber Clay Planter is available in options with or without drainage holes. The presence of drainage holes allows excess water to escape, preventing overwatering and root rot, ensuring the health and longevity of your plants. On the other hand, if you prefer a more contained setup, you can opt for the version without drainage holes.

Constructed with reinforced clay and fiber materials, the Fiber Clay Planter offers a balance of strength and lightness. The fiber reinforcement adds durability and resilience to the planter, ensuring that it can withstand the rigors of outdoor use while remaining easy to move and position as needed.

Whether you are a gardening enthusiast looking to elevate your outdoor space or a decorator aiming to add a modern touch to an indoor setting, the Fiber Clay Planter is a versatile and practical choice. Its frost-resistant nature, modern design, and durability make it a reliable option for anyone seeking a stylish and functional planter for their plants.

Applications:

When it comes to enhancing the aesthetic appeal of indoor and outdoor spaces, the Fiber Clay Planter from Quangui is the perfect choice. This versatile product, also known as a Fiber Cement Pot, is designed to meet the needs of various application occasions and scenarios.

Whether you are looking to add a touch of greenery to your indoor spaces such as hotels, gardens, and homes, or you want to elevate the ambiance of outdoor areas, this Reinforced Clay Planter is ideal for both settings. The hand-carved finishing adds a touch of sophistication, making it a stylish addition to any environment.

Originating from China, Guangdong, the Quangui QG-194 Fiber Clay Planter boasts high-quality standards with ISO9001 and CE certifications. This ensures that you are investing in a durable and reliable product that is built to last. With a minimum order quantity of 10 sets and a price of \$42 per set, it offers great value for money.

The packaging details, including paper cardboard, foam, and plastic film, ensure that the planters are well-protected during transit. With a delivery time of 30 days and payment terms of 30% deposit and 70% balance, the process is convenient and efficient.

With a supply ability of 300 sets per month, you can easily fulfill your requirements for indoor and outdoor plant display. The Fiber Clay Planter has a long lifespan of 5-6 years outdoors and 7-8 years indoors, making it a sustainable choice for your green decor needs. Available in three different sizes - A: D460*H600, B: D380*H520, C: D300*H400, these planters cater to various plant sizes and arrangements. The option of drainage holes provides flexibility based on your specific needs and plant care requirements.
