Product Description

Product Description:

The Fiber Cement Planter serves a key function in both plant design and landscape projects, offers a ideal choice for both residential and commercial spaces.

Made from cement, sand and natural cellulose fibers, the planter's construction method results in an exceptionally strong material. With an outdoor lifespan of 5–30 years and up to 15–50 years indoors, this durability means you won't need to replace them frequently, saving money on gardening supplies.

The planter is carefully handcrafted by skilled artisans, offering exceptional quality while remaining lightweight and practical.

Planter requires only minimal care — just wipe with a damp cloth or rinse with a gentle spray of water.

The fiber clay planter has a **textured** surface that adds a touch of understated elegance, helping to create visual balance and aesthetic harmony throughout any space.

A key feature of this planter is the option to customize its color. Whether you're drawn to bold shades or softer tones, you can choose a color that fits your style and complements your space. This flexibility makes it easy to create a cohesive, well-coordinated look in any setting.

The Fiber Cement Planter is available in **three sizes**, giving you plenty of flexibility for your design needs. Whether you're showcasing a larger plant or arranging a group of smaller ones, these size options make it easy to create the perfect setup for your space.

Selecting fiber cement planters goes far beyond simply adding greenery. With fiber cement, you're getting more than just a planter — you're investing in durability, flexibility, and sustainable benefits that make it a smart long-term choice.
